

## **The American Association of Clinical Anatomists Criteria for Membership**

For **active** (regular) and **corresponding** (outside American continent) **membership**, substantive interest in the goals of the **AACA** is required. Clear evidence of interest in Clinical Anatomy (gross, histologic, developmental, and/or neurologic anatomy, as applied to clinical practice), and the maintenance of high standards in the teaching of anatomy, should be provided. Required are at least 2 pertinent publications or other documentation of interest as provided in the applicant's *curriculum vitae*. In lieu of appropriate publications, other documentation shall consist of producing a record of significant teaching in anatomy in accredited Colleges and Universities. Administrative or other experience in the field of anatomy as applied to education or the provision of health care and safety shall also be considered.

*Two letters of sponsorship* that testify to the applicant's interest in the goals of the **AACA** are also required. One must come from a member, while the other may be from a nonmember colleague.

For **associate** (student/resident) **membership** *a letter of sponsorship from a member and a signature of the applicant's Dean or Department Chairman*, who will also provide the expected date of graduation or completion of residency training, are required. Associate members are expected to achieve membership status at the first annual Meeting after they graduate or complete their training.

Applications are reviewed once a year, just before the Annual Meeting. Only applications completed 30 days in advance of the Annual Meeting will be considered for approval that year. Approved applicants will be notified and billed for the following year's dues by the Secretary-Treasurer. Official membership will become effective on receipt of dues; however, those who have completed application shall be permitted to subscribe to the journal **CLINICAL ANATOMY** and to register for the annual meeting at the members' rates. Please mail completed application and documentation to:
